Architects and Builders
Should not fail to examine this Raioling, as it is better
and cheaper than any thing in use. The material
forms a hard and smooth surface that will resist the
action of the atmosphere in every climate. It is impervious to water, clastic, and flexible. It contracts
and expands with the changes of the atmosphere, and
will neither evaporate, crack nor rot; and, as to its
durability there is no anestion. will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectly resist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet, it being far cheaper than any roof of the old style, and we are sure it will give better satisfaction.

ter satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and graves roofs, or around chimners, scuttles, dormer windows and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. The Roois can be cemented over (and war ranted not to leak) at two deliars and fifty cents per ranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Rooling will be found to be the best thing for covering large Roofs where they are exposed to fire—such as Steam Mills, Saw Mills, Factories, Raifroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and in fact every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

Roca's Remedy for Pulmonary and Tubercular Consumption. HAVING been appointed sole Agent for the sale of Don Genomico Roca's celebrated Cure for Constantion, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an out-

ward application, the action of which is seemingly mi-raculous, and its having none of those attributes which make up the numerous compounds now in general make up the numerous compounds now in general use.

With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public.

A pamphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, acc., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address,

Persons of Consumptive Habits, READ THIS! TO THE GEFENBERG COMPANY: For the first time in my life I am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the certificate I feel that I am only discharging a duty that I owe to the Græfenberg Company, and a duty that I owe to the Græfenberg Company, and more especially to suffering humanity.

About the first of June last, I had a negro man taken with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skiliful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption, and said it was useless to spend money in trying to cure him.

I had previously promised the Græfenberg Agents here, (Messrs. Wells & Lowell,) that when the doctors gave him up I would try the Græfenberg Consump-tive's Balm. I did so and to my agreeable surprise. the man began to improve after taking only five or six doses. He took only two bottles of the Balm and three bottles of the Græfenberg Sarsaparilin Compound, which cost me the small sum of nine dollars, and to-day I consider him entirely cared. He is worth \$1,200. and he is doing me good service on the plantation. I consider him perfectly sound and well as he is fat, nearty, and strong, without a vestige or sign of disease JOHN MYELS, Claborne, Ala. I have used the Græfenberg Consumptive's Balm in severe cases of consumption, in my practice, with the happiest effect. I wish all would use it. S. MEDARIS, M. D.,

The Græfenberg Consumptive's Halm will effectually The Græfenberg Consumptive's Balm will effectually cure Consumption and all complaints of the lungs. In cases of Cold on the Lungs and Chest, Languer combined with Difficult Breathing, Pains in the Chest, and Bronchitis, the Græfenberg Consumptive's Balm will effect a complete cure and prevent the discase from becoming a confirmed Consumption. In all cases, delays are dangerous. They are as an hundred fold to all diseases having a tendency to Consumption. We earnestly advise all to procure the Consumptive's Balm in season. 10 The price of the Consemptive's Balm is \$3 per botte.
